

bValidatePassword\_CMockExpect  
AndReturn

bValidatePassword\_CMockExpect  
WithArrayAndReturn

CMockExpectParameters  
\_bValidatePassword

```
graph LR; A[bValidatePassword_CMockExpectAndReturn] --> C[CMockExpectParameters_bValidatePassword]; B[bValidatePassword_CMockExpectWithArrayAndReturn] --> C;
```

The diagram illustrates the relationship between two function calls and a common parameter. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'bValidatePassword\_CMockExpectAndReturn' and the bottom box contains 'bValidatePassword\_CMockExpectWithArrayAndReturn'. On the right, there is a gray rectangular box with a black border containing the text 'CMockExpectParameters\_bValidatePassword'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both functions utilize the same parameter.
