

UnitTestFixture2
/build/test/mocks/mock
_laserData.h

```
graph TD; A["UnitTestFixture2  
/build/test/mocks/mock  
_laserData.h"] --> B["unity.h"]; A --> C["laserData.h"];
```

The diagram illustrates a header file inclusion. A top box labeled 'UnitTestFixture2 /build/test/mocks/mock _laserData.h' has two blue arrows pointing down to two separate boxes below it. The left box is labeled 'unity.h' and the right box is labeled 'laserData.h'. This indicates that the top header file includes both 'unity.h' and 'laserData.h'.
