

vGetSerialNumber\_CMockExpect

vGetSerialNumber\_CMockExpect  
WithArray

CMockExpectParameters  
\_vGetSerialNumber

```
graph LR; A[vGetSerialNumber_CMockExpect] --> C[CMockExpectParameters_vGetSerialNumber]; B[vGetSerialNumber_CMockExpect WithArray] --> C;
```

The diagram illustrates the relationship between two function names and a parameter structure. On the left, two white rectangular boxes with black borders contain the function names 'vGetSerialNumber\_CMockExpect' and 'vGetSerialNumber\_CMockExpect WithArray'. Blue arrows point from each of these boxes to a single gray rectangular box on the right. This gray box contains the text 'CMockExpectParameters\_vGetSerialNumber', which represents the parameter structure for the functions.
